

What is the due date for activity completion data to be reported in PARS for activities with ABP MOC credit?

Published Date: November 2, 2016

ABP diplomates must meet yearly reporting requirements related to completion of activities, as such accredited providers are asked to submit learner completion data to the ACCME within 30 days of the completion date and no later than December 1 of the calendar year. Activities completed after December 1 must be entered immediately into PARS.
