

What is an RPC ID?

Published Date: August 12, 2015

The REMS Program Companies (RPC) assigns an ID (RPC ID) to each activity for which it provides commercial support. Accredited providers that offer RPC- supported REMS activities are responsible for entering the RPC ID in the designated field in the REMS section of the activity web-fill form in the Program and Activity Reporting System (PARS). This ensures that their RPC-supported activities can be identified and reported to the RPC and, ultimately, to the FDA. If you are an accredited provider that has received commercial support from the RPC for REMS activities and you have questions about the RPC ID, please contact: grants@er-la-opioidrems.com [1].
