Introduction

Your Decision

Upon completing the initial, reaccreditation or progress report process, your organization will receive an individualized ACCME decision through the ACCME's PARS system. The decision is ACCME's formal notification to you of the accreditation status and term that your organization has been assigned. The decision summarizes ACCME's findings related to your compliance with the [accreditation requirements](#). The decision will indicate if other actions are required, such as a progress report for providers receiving reaccreditation or progress report decisions or an activity review for providers receiving initial accreditation decisions. The decision might also contain some specific language that explains ACCME's findings for some requirements.

Accessing Your Decision

Providers can access your organization's decision report from your [PARS dashboard](#). **The screenshots below will guide you to the information you need to review the decision.**

Once you sign in, from the "HOME" tab, you can see the accreditation status that resulted from your decision:

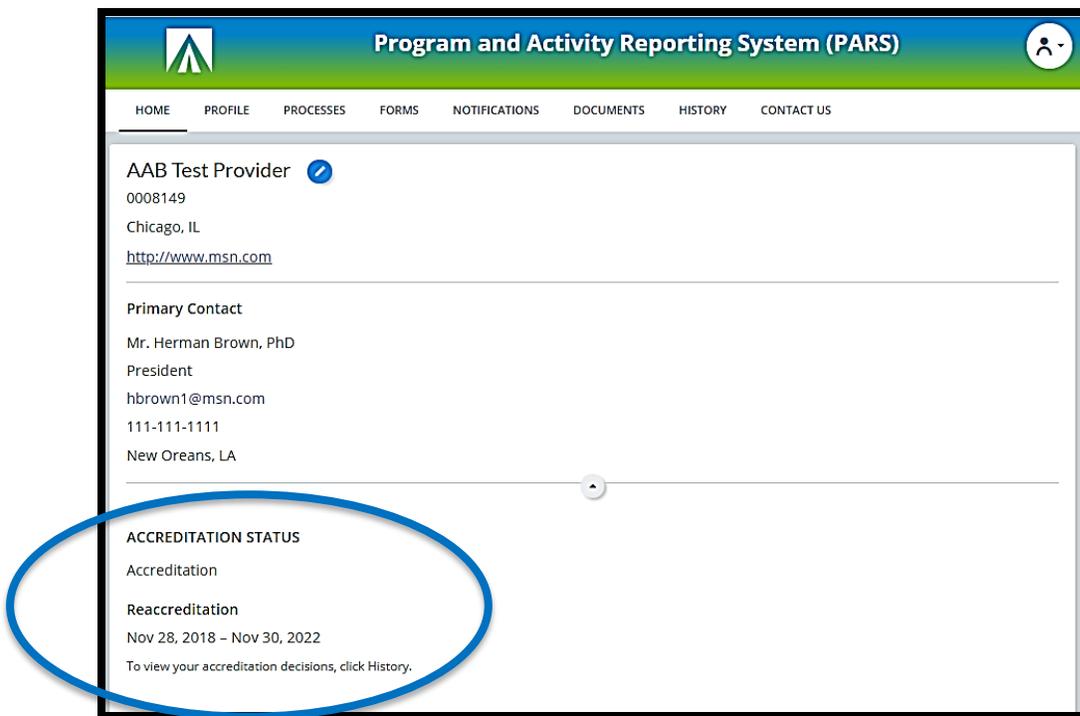

Figure 1

Next, move to the "HISTORY" tab, where you will see the most recent decision at the top, including your new term expiration date. Next, you will click on "View Compliance Findings" to see the detail of your decision.

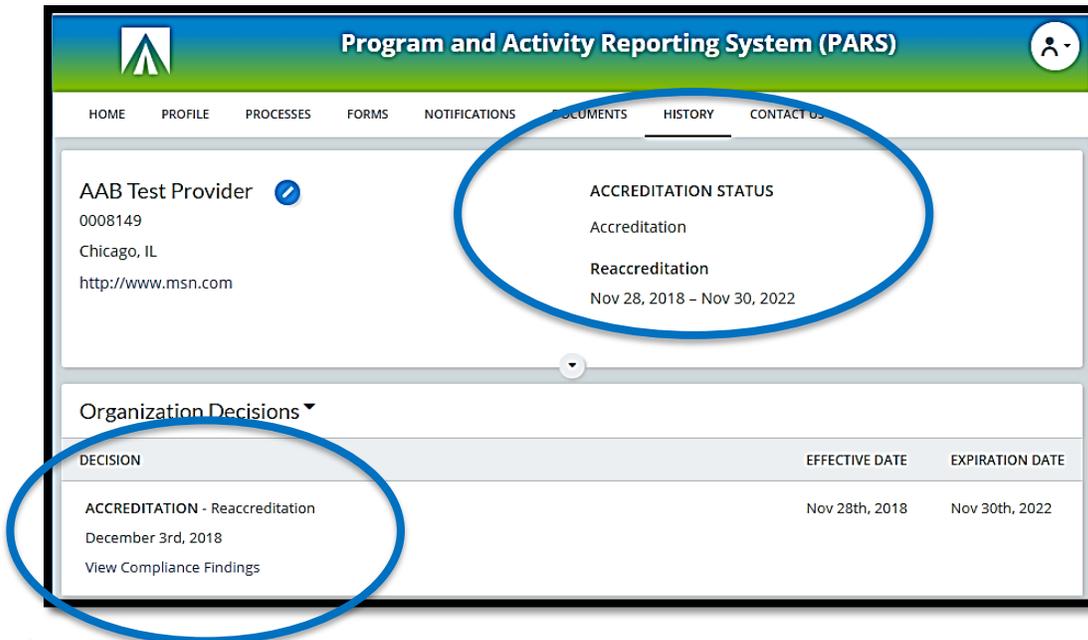

Figure 2

Once you click the “View Compliance Findings” link, you will be able to see the compliance findings along with any descriptions of performance for each of the ACCME criteria and policies reviewed in this decision:

The screenshot shows the 'View Compliance Findings' page with a table of criteria and their compliance status. The table has columns for 'Criteria', 'C', 'N', 'NA', and 'Comments'. The 'C' column indicates compliance, 'N' indicates non-compliance, and 'NA' indicates not applicable. The 'Comments' column provides detailed feedback for non-compliance findings.

Criteria	C	N	NA	Comments
ACCREDITATION STATEMENTS Show Test	✓			
CME Activity Records Retention Policy Show Test	✓			
Attendance Records Retention Policy Show Test	✓			
CRITERION 1 Show Test	✓			
CRITERION 2 Show Test	✓			
CRITERION 3 Show Test	✓			
CRITERION 4 Show Test	✓			
CRITERION 5 Show Test	✓			
CRITERION 6 Show Test	✓			
CRITERION 7 CCB 1 Show Test	✓			
CRITERION 7 CCB 2 Show Test	✓			The provider's mechanism to obtain information about relevant financial relationships did not ensure that the full range of relevant financial relationships was identified. Specifically, for the majority of activities reviewed, the provider asked about relationships with the manufacturers of any of the products or providers of any services you intend to discuss and did not ask about relationships with entities that market, re-sell, or distribute health care goods or services. Therefore, the provider was not able to demonstrate that it consistently identified and resolved all conflicts of interest (SCS 2).
CRITERION 7 CCB 3 Show Test	✓			Because its mechanism to obtain information about relevant financial relationships did not ensure that the full range of relevant financial relationships was identified, the provider was not able to demonstrate that it consistently disclosed all relevant financial relationships to learners. In addition, for the two activities that received commercial support, the provider used separate logos in its acknowledgment of commercial support to learners (SCS 8).
CRITERION 8 Show Test	✓			
CRITERION 9 Show Test	✓			

Figure 3

Compliance: The CME provider fulfilled the ACCME’s requirements for the specific criterion or policy.

Noncompliance: The CME provider did not fulfill the ACCME’s requirements for the specific criterion or policy.

Not Applicable: The CME provider was not required to comply with the specific criterion or policy. For example, initial applicants must comply with Criteria 1, 2, 3, and 7–12 in order to be eligible for Provisional Accreditation and would receive a ruling of “not applicable” for the other Criteria. CME providers seeking reaccreditation would receive a finding of “not applicable” in policy areas that do not apply to the types of activities they produce.

Evidence Not Submitted: The CME provider chose not to submit documentation to demonstrate compliance with the ACCME’s Criteria for Commendation (either C16-22 or eight from C23-38). Providers applying for reaccreditation must meet the requirements of Criteria 1–13, but are not required to demonstrate compliance with the Criteria for Commendation. If the CME provider chose not to submit documentation to demonstrate compliance for the Criteria for Commendation, the provider would receive a finding of “evidence not submitted” for those Criteria.

If your decision includes noncompliance findings in any of the standard criteria, you will be required to submit a progress report. In order to see information about the due date for a Progress Report, please open the “PROFILE” tab for information on whether a Progress Report is required, and the date of the Progress Report decision.

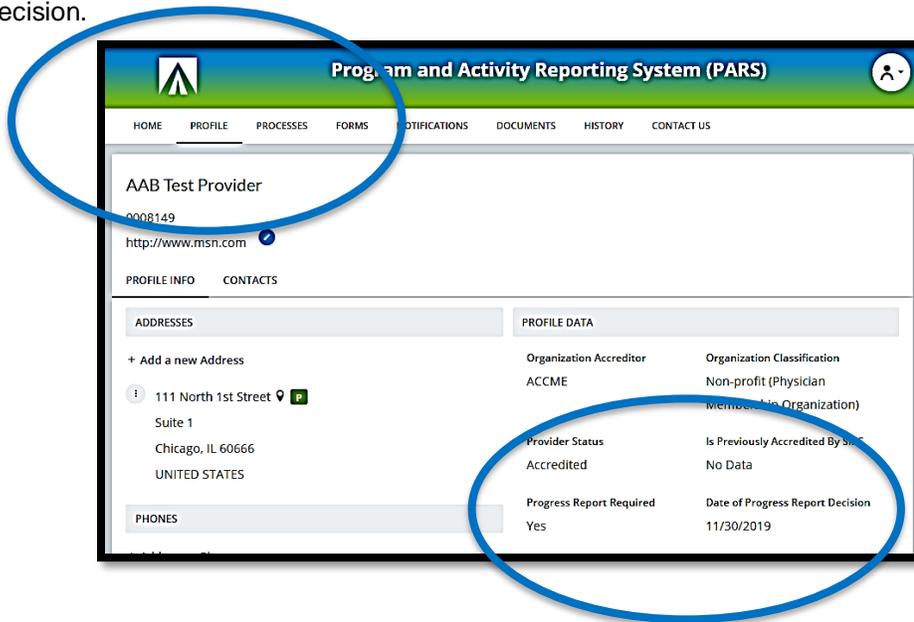

Figure 4

Accreditation Status

The accreditation and reaccreditation decision-making process assesses a CME provider’s compliance with the [accreditation requirements](#). Based on these compliance findings, the ACCME decides on the provider’s accreditation status.

Provisional Accreditation

An initial applicant’s decision is based on a demonstration of compliance in Criteria 1-3, 7-12, and the accreditation policies. The decision includes feedback on criteria 5, 6, or 13 if evidence was submitted for ACCME review. However, noncompliance and not applicable findings in Criteria 5-6 or 13 are not considered in determining an initial applicant’s accreditation status.

Accreditation Statement

With Provisional Accreditation, an organization becomes an ACCME-accredited provider. As an ACCME-accredited provider, your organization is responsible for using the ACCME accreditation statement to identify your organization as the entity responsible for demonstrating compliance with all ACCME accreditation requirements. The [ACCME accreditation statement](#) must appear on CME activity materials and brochures distributed by accredited organizations — with the exception, for example, of save-the-date activity announcements that contain only general, preliminary information about the activity such as the date, location, and title. If more specific information is included, such as faculty and objectives, you must include the accreditation statement.

Activity Review

If your organization did not have an Activity Review as part of its initial accreditation process, then this must occur as part of your reaccreditation review to be eligible for full accreditation. The Activity Review is in addition to the ACCME's standard performance-in-practice review. It entails the observation of one of your organization's CME activities, an activity of any type, by an ACCME surveyor. An Activity Review requires 1) a surveyor's observation of a CME activity as presented to the learners and 2) the surveyor's completion of an [ACCME Activity Review Form](#). Your organization will be contacted by the ACCME to make arrangements for fulfilling this requirement before your next decision. No additional information is required, at this time, to complete the Activity Review.

Reporting CME Activity Data

As an ACCME-accredited provider, your organization must enter into the ACCME's Program and Activity Reporting System (PARS) information about all of the activities — directly or jointly provided – offered under the umbrella of your accreditation statement. Providers must enter all program and activity data for each year and complete the attestation by the last business day of March of the following year to allow for the calculation of the ACCME Annual Report data.

In addition, providers are responsible for maintaining current, accurate contact information for your organization in PARS to ensure that you receive important policy updates, as well as information specific to your organization. To protect the best interest of all parties, the ACCME generally limits communications to persons identified as authorized contacts by the provider in PARS. To edit the contact information in PARS, please see the detailed instructions in the [Provider QuickStart Guide to PARS](#).

Annual Accreditation Fee

As an ACCME-accredited provider, your organization is responsible for the timely submission of the fees that are required either to attain or maintain accreditation, including the Annual Accreditation Fee payable by January 31 of each year. Failure to meet ACCME deadlines could result in an immediate change of status to Probation and subsequent consideration by the Board of Directors for a change of status to Nonaccreditation.

Accreditation with Commendation

Accreditation with Commendation confers a six-year term of accreditation awarded to accredited providers for demonstrating compliance in [Accreditation Criteria](#) (C1–13) and in Option A Commendation Criteria (C16-22) or from Option B: Menu of New Commendation Criteria (C23-38).

The ACCME encourages providers that achieve Accreditation with Commendation to publicize this accomplishment in the accreditation process within your organizations and to the larger community in which you operate. It is important to the ACCME that the healthcare system is aware of your achievement, the work you do, and of the standards you have met. We have created an [Accreditation with Commendation mark](#) to support your communications. Please see the policies on [ACCME Logo Usage and Publicizing ACCME Accreditation](#).

Accreditation

Accreditation is the standard, four-year term awarded to accredited providers for demonstrating compliance in [Accreditation Criteria](#) (C1–13) and [policies](#).

Accreditation, Progress Report Required

Providers that demonstrate one or more noncompliance findings in [Accreditation Criteria](#) 1–13 and/or the [policies](#) receive Accreditation with the standard, four-year term but are required to submit a [progress report](#). The ACCME expects organizations found to be in noncompliance with Criteria 1-13, or with the policies reviewed in the accreditation process, to demonstrate compliance through the progress report process. A progress report serves as an important opportunity for a provider to demonstrate that it has mechanisms in place to make improvements to its CME program. The requirement to improve is an integral part of the ACCME’s accreditation system. If all criteria or policies that were found to be in noncompliance are not corrected, the ACCME may require another progress report, a focused interview, and/or a change of status may result.

Preparing and Submitting Your Progress Report

ACCME asks providers to describe the following in their progress reports:

- the results of their organization’s self-assessment of the ACCME’s findings of noncompliance
- the improvements identified and implemented to rectify the findings of noncompliance.
- current practice now that improvements have been implemented.

Providers must also furnish evidence of performance-in-practice demonstrating compliance.

A standard progress report review fee will be required; see [ACCME-accredited provider fee schedule](#). The fee is due upon receipt of the invoice that you will receive via email. Submission instructions and format requirements are provided in the [Guide to the ACCME Progress Report Process](#).

From the Profile Tab in PARS, you will see the date scheduled for the decision of the progress report required by your decision.

If the “Date of Progress Report Decision” indicates 7/31/2019, your organization should adhere to the following milestones applicable to an 8-month progress report review process:

Date	8-Month Progress Report Milestones
Due Upon Receipt of Invoice	Provider remits the progress report review fee.
Jan 9 2019	<p>Provider enters CME activity data.</p> <p>If applicable (see <i>Guide</i> for progress report content requirements related to your noncompliance findings), enter information about the CME activities that your organization has provided, or will provide, under the umbrella of your ACCME accreditation statement, from December 1, 2018 - July 31, 2019, into the ACCME’s Program and Activity Reporting System (PARS) at www.pars.accme.org.</p>
Jan 23 2019	<p>ACCME notifies provider of activities selected for performance-in-practice review.</p> <p>Based on the CME activity data you entered, the ACCME will select up to five activities for performance-in-practice review, if applicable to your noncompliance findings. We will inform the primary contact for your organization via email.</p>
March 6 2019	<p>Provider submits progress report with:</p> <ol style="list-style-type: none"> 1. Descriptions of implementation of improvements 2. Evidence of performance-in-practice
July 2019	ACCME notifies provider of the progress report decision.

If the “Date of Progress Report Decision” indicates 11/30/2019, your organization should adhere to the following milestones applicable to a 12-month progress report review process:

Date	12- Month Progress Report Milestones
Due Upon Receipt of Invoicet	Provider remits the progress report review fee.
March 20 2019	<p>Provider enters CME activity data.</p> <p>If applicable (see <i>Guide</i> for progress report content requirements related to your noncompliance findings), enter information about the CME activities that your organization has provided, or will provide, under the umbrella of your ACCME accreditation statement, from December 1, 2018 - November 30, 2019, into the ACCME’s Program and Activity Reporting System (PARS) at www.pars.accme.org.</p>
April 17 2019	<p>ACCME notifies provider of activities selected for performance-in-practice review.</p> <p>Based on the CME activity data you entered, the ACCME will select up to five activities for performance-in-practice review, if applicable to your noncompliance findings. We will inform the primary contact for your organization via email.</p>
July 10 2019	<p>Provider submits progress report with:</p> <ol style="list-style-type: none"> 1. Descriptions of implementation of improvements 2. Evidence of performance-in-practice <p>Provide verification that your organization has made improvements to your CME program and that those improvements have resulted in compliance in the areas that are currently in noncompliance.</p>
Nov 2019	ACCME notifies provider of the progress report decision.

Your Accreditation Responsibilities

The ACCME expects all accredited providers to take an active, ongoing role in maintaining compliance with accreditation requirements, fulfilling their responsibilities, and improving their CME programs during their accreditation terms.

- Maintain compliance with [accreditation rules](#).
- Fulfill your [year-end reporting requirements](#) in the Program and Activity Reporting System (PARS).
- Pay accreditation fees in a timely manner, according to [ACCME policy](#).
- [Inform us of organizational changes](#).
- If requested, provide evidence of your [continuous compliance](#) with the accreditation requirements.

Accredited Provider Mark

Providers accredited within the ACCME System (providers directly accredited by the ACCME and those accredited by ACCME Recognized Accreditors) are welcome to use the ACCME Accredited mark for educational and identification purposes, and in [announcements related](#) to their attainment of ACCME accreditation. While the mark may be resized, the original aspect ratio should be maintained (it should not be stretched or condensed in a way that causes it to become distorted). Except for resizing, no other changes can be made. Please refer to the [ACCME’s policy on logo usage](#) before downloading or using these images.
