

ACCME® Annual Report Data 2007

Each year, ACCME accredited providers submit an Annual Report form that contains information about their CME program, including the number and type of activities provided, hours of instruction presented, numbers of physician and non-physician participants, as well as some financial information. Accredited providers submitted their 2007 Annual Report forms via a secure website. All reports were due on March 31, 2008.

The information published herein is based upon self-reporting by individual accredited provider organizations. The accuracy and relevancy of the individual responses may vary depending on the providers' interpretation of questions and categorization of activity formats. Although ACCME strives to obtain data that are consistent with its terms and definitions, full verification of the accuracy of all reported information lies outside the scope of this data collection. The educational activity formats on which reporting has been initiated recently may be especially subject to variance in interpretation. These activity formats are indicated by an asterisk (*) in Table 1.

The following tables and charts present the aggregated results of the submitted 2007 Annual Reports.

Table 1: Size of the CME Enterprise Presented by ACCME Accredited Providers

Table 2: Activities by Organization and Activity Type

ACCME's Accreditation Decisions and Compliance Data (2007)

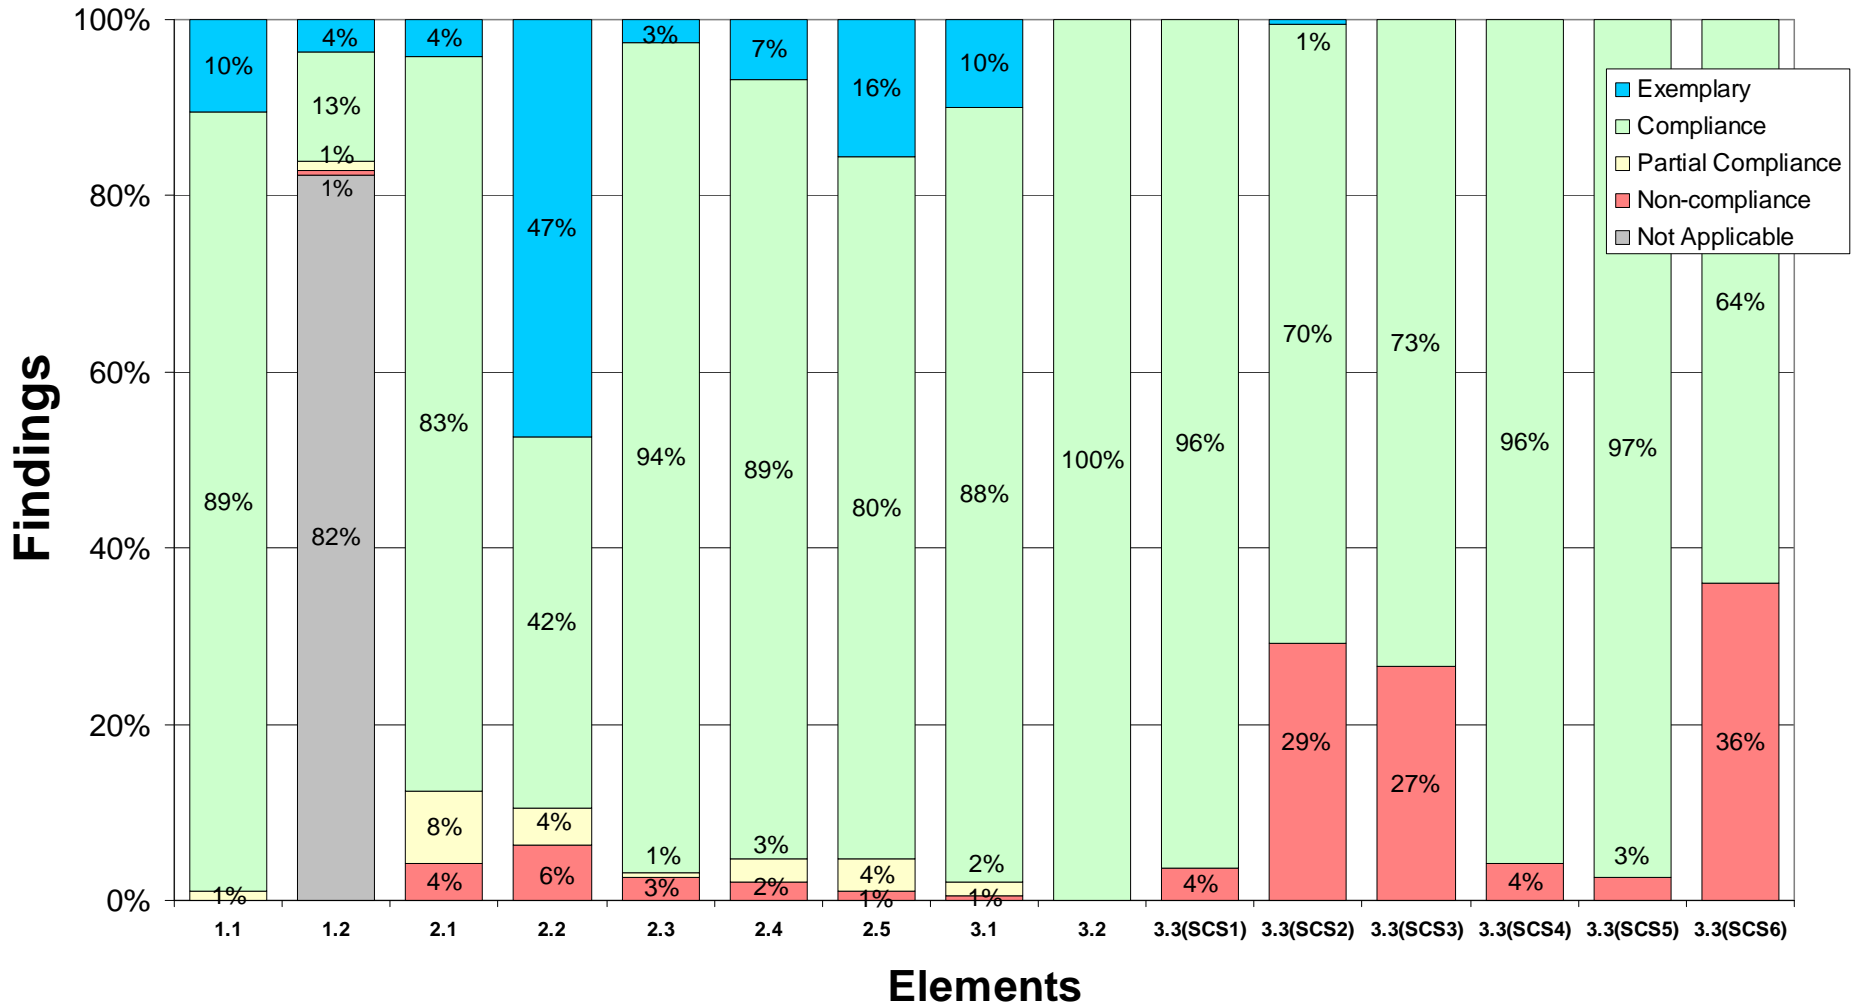

During 2007, the ACCME reviewed 192 providers of continuing medical education for accreditation or reaccreditation using the Essential Areas, Elements, and Decision Making Criteria defined under the system of accreditation.

Table 9 shows the status of providers at the time of application and the resulting accreditation decisions. Table 9 provides information about compliance findings for those decisions. The ACCME uses this data and information to determine needs for provider education, clarification of terms, or to engage in other types of quality improvement efforts.

Table 9: Accreditation Decisions (2007)

		Non-Accreditation	Provisional	Probation	Accreditation	Accred w/ Commendation	Total
Accreditation Status at Application	Initial	6	24				30
	Provisional		1		17	1	19
	Accreditation			2	123	9	134
	Accreditation w/ Commendation				3	6	9
	Total	6	25	2	143	16	192

Figure 1: Summary of Compliance with the Essential Areas and Elements (2007)

Partial Compliance is not an option for Elements 3.3 (ACCME® Standards for Commercial SupportSM 1-6)
 Totals may not equal 100% due to rounding.

ACCME® Terms, Definitions and Descriptions (in alphabetical order)

CME Activity	Educational offering that is planned, implemented and evaluated in accordance with the ACCME® Essential Areas and their Elements, and Accreditation Policies.
Commercial Interest	Any proprietary entity producing health care goods or services, with the exemption of non-profit or government organizations and non-health care related companies. The ACCME does not consider providers of clinical service directly to patients to be commercial interests.
Commercial Support	Financial, or in-kind, contributions given by a commercial interest, which is used to pay all or part of the costs of a CME activity. <u>Advertising and exhibit income is not considered commercial support.</u>
Committee Learning	A CME activity that involves a physician learner's participation in a committee process where the subject of which, if taught/learned in another format would be considered within the definition of CME.
Course	A live CME activity where the learner participates in person and which is planned on a one-by-one basis and designated for credit as a single activity. (Examples: annual meeting, conference, seminar)
Directly-sponsored	An activity that is planned, implemented and evaluated by the accredited provider. Include co-sponsored activities (provided by two accredited providers) in this category if you are the accredited provider awarding the credit.
Enduring Material	Printed, recorded, or computer-presented CME activity that may be used over time at various locations and which, in itself, constitutes a planned activity. In an enduring material the provider creates the content.
Expenses	Total cost of goods, services and facilities purchased to support your program of CME. (Examples: amounts spent for CME staff salaries, faculty honoraria, and meeting space.)
Hours of Instruction	The total hours of educational instruction provided. For example, if a one-day <i>course</i> lasts 8 hours, then total hours of instruction for that <i>course</i> is 8. See <i>Regularly Scheduled Conference</i> for additional example. 'Hours of instruction' and AMA PRA Category 1 Credit™ awarded may be the same or may be different. ACCME is looking for 'Hours of instruction' as part of our data that will describe the scope of the CME program.
Income	Income received from any source, other than commercial support or advertising and exhibitor income, including government grants, registration fees, and internal allocations.
Internet Activity, Enduring Material	An <u>Enduring Material</u> Internet Activity is available when the physician participant chooses to complete it. It is "enduring," meaning that there is not just one time on one day to participate in it. Rather, the participant determines when he/she participates. (Examples: online interactive educational module, recorded presentation, podcast)
Internet Activity, Live	A <u>live</u> Internet activity is an online course available at a certain time on a certain date and is only available in real-time, just as if it were a course held in an auditorium. Once the event has taken place, learners may no longer participate in that activity. (Example: webcast)
Internet Searching and Learning	A CME activity in which a learner accesses the content of the activity directly from the internet. This is differentiated from a 'course' and an 'enduring material' because the provider does not create the content but rather the learner chooses content based on what (s)he feels meets their needs or answers their questions.
Jointly-sponsored	An activity that is planned, implemented and evaluated by the accredited provider and a non-accredited entity.

Journal-based CME	A journal-based CME activity includes the reading of an article (or adapted formats for special needs), a provider stipulated/learner directed phase (that may include reflection, discussion, or debate about the material contained in the article(s)) and a requirement for the completion by the learner of a pre-determined set of questions or tasks relating to the content of the material as part of the learning process.
Learning from Teaching	A CME activity based on the physician learner's preparation to teach in a live CME activity.
Manuscript Review	A CME activity based on a learner's participation in the pre-publication review process of a journal article.
Non-Physician Participants	Attendees other than MDs and DOs, such as nurses, physician assistants, and other health professionals. Include residents in this category.
Performance Improvement	It is a CME activity in which a provider has established a process by which a physician identifies an educational need through a measure of his/her performance in practice, engages in educational experiences to meet the need, integrates learning into patient care and then re-evaluates his/her performance.
Physician Participants	MD and DO activity-participants
Regularly Scheduled Series	<p>A course is identified as an RSS when it is planned to have 1) a series with multiple sessions that 2) occur on an ongoing basis (offered weekly, monthly, or quarterly) and 3) are primarily planned by and presented to the accredited organization's professional staff. Examples of activities that are planned and presented as a regularly scheduled conference are Grand Rounds, Tumor Boards, and M&M Conferences.</p> <p>When reporting on RSS activities, each series equals one activity. The cumulative number of hours for all sessions within a series equals the number of hours for that activity. Each physician is counted as a learner for each session he/she attends in the series. (Example: Internal Medicine Grand Rounds is one activity that meets for one hour each week. That series is counted as one activity with 52 hours of instruction; if 20 physicians participated in each session, total physician participants would be 1,040 for that activity.</p> <p>These activities have been previously described as "Regularly Scheduled Conferences", or "RSCs".</p>
Test Item Writing	A CME activity based on a learner's participation in the pre-publication development and review of any type of test-item (ex: multiple choice questions).
